

# RSM Video Raman Microscope

An affordable and versatile accessory for Raman Systems spectrometers

The Raman Systems **RSM Video Raman Microscope** is an upright laboratory microscope that couples to a Raman Systems spectrometer (sold separately). The accessory is supplied with a **Reflected Light, Brightfield Illuminator** and with a **USB Color Video Camera**.

The **RSM Video Raman Microscope** works with the Raman Systems models **PeakSeeker™** and **PeakSeeker Pro™** spectrometers mating to the external fiber optic probe.

The **USB Color Video Camera** facilitates precise sample positioning of the laser spot from the Raman spectrometer onto a solid sample surface.

The **RSM Video Raman Microscope** is supplied with long working distance, infinite plan achromat objectives. The higher magnification objectives provide a smaller laser spot size.
